

## 6-Series Anti-Fouling Kits

*System Inhibits Biofouling to Lengthen Deployment Times and Reduce Operating Costs*

YSI's Anti-fouling Kits, designed for 6-Series Sondes, are reliable and affordable ways to significantly lengthen deployment times, reduce operating costs, and ensure high quality data for continuously deployed monitoring systems.

*YSI 6600 sonde with installed anti-fouling kit*

The system complements the existing 6-Series wipers/brushes and uses copper alloys to provide optimal anti-fouling characteristics and long-term durability. The kits also use an environmentally safe, nanopolymer spray to keep non-wiped surfaces slick and challenging for biofouling settlement.

The Anti-fouling Kits will lengthen deployments that are impacted by biofouling by two to five times—or longer, depending on the environment. This means you can reduce expensive maintenance trips to the field by 2-5 times, a major savings in operating costs. With the Anti-fouling Kits installed, cleaning the sonde is much easier and the chance of damage during cleaning is much less.

- Optimize data return from remote monitoring sites
- Lower the cost of long-term deployments by 2-5x
- 200 meter depth rating for all Anti-Fouling Optical Probes
- Easy instrument cleaning with reduced risk of sensor damage

The kit components are sold separately, so you can order the parts you need for a specific sonde. *Refer to back page for list of all components.*

## How to Order Anti-fouling Parts

Category	Item Number	Description
Optical Sensors	616425	<b>Anti-fouling Chlorophyll Probe.</b> Includes probe with copper-alloy housing, lock nut, wiper block, and wiper kit. Rated to 200 meter depth.
	616431	<b>Anti-fouling Blue-green Algae-Phycocyanin Probe.</b> Includes probe with copper-alloy housing, lock nut, wiper block, and wiper kit. Rated to 200 meter depth.
	616432	<b>Anti-fouling Blue-green Algae-Phycocerythrin Probe.</b> Includes probe with copper-alloy housing, lock nut, wiper block, and wiper kit. Rated to 200 meter depth.
	616436	<b>Anti-fouling Turbidity Probe.</b> Includes probe with copper-alloy housing, lock nut, wiper block, and wiper kit. Rated to 200 meter depth.
	616450	<b>Anti-fouling ROX™ Dissolved Oxygen Probe.</b> Includes probe with copper-alloy housing, lock nut, wiper block, and wiper kit. Rated to 200 meter depth.
Wipers for Sensors	616625*	<b>6625AF Anti-fouling Wiper Kit for YSI optical sensors.**</b> Includes two wiper assemblies (copper-alloy wiper block, larger pad, and setscrew), hex wrench, and instructions. (Does not include sensor.)
	616630*	<b>6630AF Anti-fouling Wiper/Brush Kit for 6600EDS sonde.</b> Includes two wiper assemblies (copper-alloy wiper/brush assembly, larger pad, and setscrew), hex wrench, and instructions. (Does not include sensor.)
	616445*	<b>6445AF Anti-fouling Wiper/Brush Kit for 6600V2-4 sonde.</b> Includes two wiper assemblies (copper-alloy wiper/brush assembly, larger pad, and setscrew), hex wrench, and instructions. (Does not include sensor.)
Sensor Membrane	606155	<b>6155 Optical DO Membrane Kit for 6150 and 6450 DO Probes.</b> Includes copper-alloy replacement membrane, lock nuts, hex wrench, and instructions. (Does not include sensor.)
Sensor Screens	616270	<b>Copper-mesh screens.</b> Kit includes two pre-formed, anti-fouling screens for 6560 Conductivity/Temperature Probe or 6561 pH Probe, tie wraps, and instruction sheet.
Nanopolymer Solution	616290	<b>C-Spray Protective Probe Solution for 6560 Conductivity/Temperature Probe and other components.</b> 100 mL bottle.
Guards	616145	<b>Copper-alloy sonde guard for 6600 sondes</b>
	616176	<b>Copper-alloy sonde guard for 6820/6920 sondes</b>
	616175	<b>Copper-alloy sonde guard for 600OMS sonde (long length)</b>
Tape	616189	<b>Roll of anti-fouling copper tape.</b> 2 in. wide x 16 ft. long (5 cm x 4.8 m). Adhesive backed. Apply to 6560 Conductivity/Temperature Probe, 6561 pH Probe, and other probes. ~230 applications. Lasts ~4-6 weeks in water.
Port Plugs	616151	<b>Copper-alloy optical probe port plug</b>
	616161	<b>Copper-alloy pH probe and Rapid Pulse DO probe port plug</b>
	616171	<b>Copper-alloy ISE probe port plug</b>

\* Proper use of the anti-fouling wipers requires the latest version of 6-Series sonde firmware (3.06 or later).

\*\* For a YSI 6600V2-4 sonde with wiped pH/ORP probe, purchase one 616445 wiper/brush assembly plus 616625 wipers for your remaining optical sensors. For a YSI 6600EDS sonde, purchase one 616630 wiper/brush assembly plus 616625 wipers for your remaining optical sensors.

#### **Welcome to the world of Observator**

Since 1924 Observator has evolved to be a trend-setting developer and supplier in a wide variety of industries. Originating from the Netherlands, Observator has grown into an internationally

oriented company with a worldwide distribution network and offices in Australia, Germany, the Netherlands, Singapore and the United Kingdom.
