package

Course Description:

Who is this course for?

This course is aimed at radio operators and any other personnel who may require an overview of the helideck monitoring system.

Is previous experience required?

This course is designed to complement your knowledge of the relevant standards:

- The Helideck Certification Agency (HCA) Standard Helideck Monitoring Systems
- The UK Civil Aviation Authority (CAA) Standards for offshore helicopter landing areas CAP 437

How will the course benefit me?

By providing you with an overview of how to operate an Observator helideck monitoring system (HMS), what data it displays and procedures during helicopter movements.

How will the course benefit my company?

By ensuring personnel have an overview of how to operate the HMS, what data it displays and procedures during helicopter movements.

What standards are referenced in the course?
